Darren,

Please can you email me the tracking # if you have shipped the 3x3 probe so we keep an eye out for it.

Thanks,

Ben Nwosu

All,

Is there a SSID or site name we can reference this to?

Thanks,
Darren Lyles

Thanks Dan. Forgot about Academy next week.

I can also work with Rich on getting things together for you. Make you he has the GPS we set up earlier.

Thanks everyone for your help.

Darren,

I will be out of the office next week at OSC Academy. I need the instrument by Wednesday, December 7th so we have a day in the office with it to make sure we can get everything to work properly.

Please ship to Rich Wickersty at the address Mike provided below. Rich's phone number is 732-452-6445 or 908-510-5382.

Thanks so much.

Dan

Darren,

If you could ship it out this week that would be great as Dan and I could give it a quick VIPER test before he deploys it.

Hi Michael,

Harry gave his approval for use to send you a Viperized 2241 w/3X3 probe. When do you need it to arrive and what is the "Ship to" address?

Thanks,

Darren Lyles

Ok Mike. I'm pretty sure we have this. Darren please check and make it available if not reserved.

Thanks!

Harry,

Does Region 9 have a "VIPER-ized" Ludlum 2241 with 3x3 probe that is available to lend to R2 for a couple of weeks starting late next week? I have been trying to help but ERT is out of the 2241 with 3x3s right now and if R2 rents a meter it won't be "VIPER-ized".

I recall you had a couple for Navajo and figured you might be able to help out???

FYI, the 3x3 is Model 44-20, 3 inx3 in NaI Integral Gamma Scintillator.

Thanks in advance.

Mike
